HIGH QUALITY ENGINEERING BY SOLARWORLD

More than 40 years of technology expertise, ongoing innovation and continuous optimization create the foundation for the performance of SolarWorld's high-quality modules. We guarantee our customers the highest quality during all steps of production. Our modules are extremely flexible when it comes to their application and provide optimal solutions for installation and non-stop performance – worldwide.

- » Extremely tough and stable, despite its light weight – able to handle loads up to 8.5 kN/m².
- » Tested in extreme weather conditions – hail impact tested and resistant to salt spray, frost, ammonia, dust and sand.
- » Proven guarantee against hotspots and PID- free to IEC 62804-1.
- » Highly-efficient cells (mono PERC) for the highest possible yields.
- » Patented corner design with integrated drainage for optimized self-cleaning.
- » High-transmissive front glass and anti-reflective coating.
- » Long-term safety and guaranteed top performance – At least 97% of nominal power in the first year – 25-year linear performance warranty – 20-year product warranty.
