

# RENEWABLE POWER 2CRP1200

## ADVANCED AMERICAN ENGINEERING

2CRP1200

## POWERFUL, SCALABLE ENERGY STORAGE

Crown Battery has you covered. Whether you're looking for grid-tied UPS or an off-grid renewable power storage system, this battery features massive energy storage availability, unmatched application safety performance, and system ROI payback that justifies your investment in sustainable living.

- ▶ Storage capacity up to 55.9 kWh (48-VDC) to deliver best available application performance and ROI
- ▶ Easy to handle, configure and setup – with unmatched system flexibility
- ▶ Deployable for new or existing systems; resilient in extreme operating temperatures
- ▶ Earth-friendly monobloc is reusable at the end of battery life; fully recyclable
